## **You are invited**

to the Transparency International Australia AGM

followed by a Keynote Address by

**Mr Noel McNamara**

### **“Building Partnerships to Fight Financial Crime”**

Noel is Chief Risk Officer for HSBC Australia, with responsibility for wholesale and market, retail and operational risk, regulatory and financial crime compliance along with security and fraud risk.

From bribery and corruption to people-trafficking and drug-smuggling: organised crime takes many forms and does untold damage. Banks have a major part to play in stopping it. The vast majority of financial institutions take this responsibility very seriously. But no organisation can tackle this complex, long-term challenge alone. A close partnership between banks, policymakers, NGOs and law enforcement agencies is crucial.
