_Q7

What is the main reason for not reporting corruption?

Based on your experiences, what do you think is the main reason why many people do not report corruption when it occurs?

Base. All respondents excluding missing responses.

	People are afraid of the consequences	Nothing will be done / It wouldn't make a difference	People don't know where to report it	People don't know how to report it	People don't have enough time to report it	Corruption is normal / Everyone does it / everyone is involved	The officials where they would report to are also corrupt	Corruption is hidden/ it difficult to prove	Most people do report incidents of corruption	It's too expensive to report (e.g. due to travel or phone charges)	Because they would implicate themselves as bribe-givers	It's government's money, not the people's, so it's not our problem	Other	Don't know
